MEMORANDUM FOR THE RECORD

SUBJECT: Selected United Kingdom Steel  
Statistics for 1974

On the evening of 20 May, Mr. William Hyland, Director of INR, Department of State requested 1974 data on UK steel production and exports. This information was to be forwarded by Mr. Hyland to Secretary Kissinger. A 2200 hours, 20 May, deadline was imposed. I/WE analyst responsible for EC steel developments, responded to the request and provided the appropriate information. The data were LDX'ed to the State Department before the deadline and presumably were transmitted to Secretary Kissinger in Europe.
